

Banquet Summary

James Belden

The Chapter's annual banquet held March 24th, was once again a success. Some 88 attendees enjoyed an evening of dinner, drinks and conversation as well as an opportunity to hear more about the resources we work to protect. Pending final accounting, we should clear around \$6,000 from the Banquet !! Over sixty raffle prizes, two dozen silent and live auction items, in addition to a grand prize, ensured that everyone had an opportunity to go home with something and ample opportunity to support the chapter's fundraising effort.

With the receipt of grant funding for specific projects combined with funds raised at the banquet we will be able to pursue many opportunities this year as we work to conserve, protect and restore our area's coldwater fisheries. We would like to thank every attendee, and certainly every raffle and auction item donor for their support. A special thanks to John Cumisky for generously enabling our ability to handle credit cards at the banquet.

Now it is time to start working on next year's banquet in conjunction with spending this year's money. Anyone with donations or a desire to help organize the banquet next year should contact an officer as early as possible.

Why we're doing all this:

April Tree Planting Project

Volunteers needed !

The dates are set for the tree planting with some slight revisions to earlier plans. I have made arrangements with Reed School, Fleet Environmental and finalizing with the Lions Club, Town and Country garden club and Planter's Choice Nursery. I will order the caging material from Newtown Hardware next week.

We will have about 40 large trees, 100-150 small white spruce, 200 small trees and shrubs (red twig, swamp oak, pin oak, spice bush, etc.). Schedule as follows.

April 24th Monday- Planter's Choice delivery of trees. At 2 or 3PM Fleet Environmental will bring machines and some laborers down to help plant large trees, about 40 trees.

April 25th (Rain date 27th) 9:30 first wave of Reed students come down until 11:00. A second wave will follow at 11:00 for 1 1/2 hours again. We will plant many of the small trees and shrubs. We will need adults to help dig the small holes ahead of them as much as possible. We can continue for a while afterwards doing caging, etc. The garden club will help and a few Lions members should as well.

Depending upon how much we get done we can follow up on next day(s) with Saturday April 29th as a day where we can get weekend-only folks to come out and finish any caging, planting, watering, etc. that's needed. The white spruce shouldn't need caging, but most of rest will. Meet at 9:00 AM.

The meeting place is at Deep Brook on Old Farm Rd. by the bridge, behind Reed School and Gov.'s Horse Guard off Wasserman Way.

April 11 Meeting

We'll be meeting at the Miry Brook Firehouse (south of the airport in Danbury) at 7:00 PM. See Jerry's Speaker Forum below for program. This will be our last meeting this spring until we start up again in September. Come, hear about our Banquet successes and project plans for the spring and summer and plan some fishing trips! Hope to see you there.

SPEAKER'S FORUM

April '06

Jerry Rekart

Every year members of our T.U. Chapter head for exotic and remote places to pursue their love of fly fishing. At our April meeting Doug Peterson, with some help from his friends, will present one of these trips.

In April 2005 four of our members traveled to fish three of the most fabled trout streams in the American Southwest. They floated and waded the San Juan River in New Mexico, the Colorado River at Lees Ferry, Arizona and the Green River at Flaming Gorge, Utah.

At our April meeting you'll get to see the spectacular and different scenery each location offered. You'll see weather that ranged from hot to near blizzard and of course you will see Tony Ballato, Len Carrescia, Gene Rinaldi and Doug Peterson catching fish, holding fish, losing fish and talking about fish.

As a bonus, all of the information necessary for you to make a trip to these rivers will be part of the presentation. Transportation, both air and ground, lodging, guides, food, fly shops and even tips will be discussed. When you leave, we hope you have the basic knowledge to plan a similar trip, and feel comfortable with that information. So, if you want to "go west, young man, go west", bring your questions and get your answers at our April meeting.

Try this fly

Tony Mortimer

I tied up some of these for the Banquet and will run this article once more because this fly is useful all year long. This is a great fly, I've had good success with it in Montana and in local rivers. I use it as the first nymph (it's heavy and sinks the rig faster) and a smaller dropper nymph tied on to a piece of tippet 12+ inches long (I tie it to the Copper John eye so the hook is better available to the fish). The fish hit the Copper John as often or more often than the dropper, but this offers the trout two sizes and patterns of flies. In Montana, I used it in a hopper/Copper/dropper three-way as recommended by its originator, John Barr.

I tie them in several colors of wire (green, Chartreuse, red, wine). If you don't have thinskin, use other dark nymph case material (or use cut strips of polyethylene baggie material coloring the underside black with a permanent marker – I've done this with clear thinskin which is flexible vinyl, I think). Go to the website below and see the details of each tying step. The method of applying the partridge legs is the easiest/best way I know to get the legs the right length and look on a nymph. This is a terrific site to see patterns and learn how to tie and use them (click on the "Tutorial" details)

<http://www.charliesflyboxinc.com/flybox/detail.cfm?parentID=17>

Copper John (John Barr)

Hook: TMC 5262 #12-18 (2XL, heavy hook)

Thread: Black 70 Denier,

Bead: Gold colored Brass or Tungsten, sized to hook. (and a few wraps of lead wire for additional weight up against bead if you really want to get it down in faster water—the web site shows this and I tie mine that way)

Tail: Dark Brown Goose Biot

Body: Wapsi UTC Wire, Color of Choice, sized to hook.

Flashback: Pearl Flashabou

Wingcase: Black Thinskin

Thorax: Peacock Herl

Legs: Hungarian Partridge

Wingcase Coating: 5 Minute Epoxy
(or you could use clear nail polish)

Talk about fishing and share your pictures on CVTU's website

We've recently added two new functions to our website -- a discussion forum and a photo gallery. These new tools provide an online meeting place for TU members and those interested in our chapter's activities. Web site is: www.cvtu.org

A place to talk

The discussion forum is a place where we can have discussions about fish, fishing, gear, conservation and practically any other topic (within reason) that our members find interesting. The great thing about a discussion forum is that many people can participate in the discussion without all having to be online at the same time. Each discussion thread is saved and visible to others. You can come and reply to a topic already posted or post your own topic to start a new thread.

Two helpful functions available on the forum is the "Watch this Forum" and the "Watch this Topic" functions. These functions send you emails when there is activity on the forum or topic that you're watching. Each Forum (e.g. Find a Fishing Partner, Fisher Reports, etc) can be watched for new topics. And each Topic can be watched for replies. There is a link below each forum and topic that allow you to toggle the "watch" function on and off. This is a very handy function if you aren't visiting the forums regularly.

A place to share photos

The photo gallery is just that -- a place where members can share photos of their fishing activities. You can either post in the topic related galleries (e.g. Deep Brook & Pootatuck, Saltwater, etc) or you can post in your own photo album in the gallery. Photos are limited to 512KB in size so you'll have to resize any that are larger. You'll find a link in the FAQ to a free utility that resizes photos.

Registration Required -- it's fast and easy

In order to post your comments and pictures both the forum and the gallery require registration. The process is fast and easy. On the Discussion Forum, select "Register" from the top menu bar and fill-out the form. On the Photo Gallery, select the "Register" link at the top of the page and fill out the form. The Photo Gallery requires one more step in order to register. You must click on the link in an email that the gallery will send to the email address you included in your registration. Once you click on that link your account will be active.

Privacy Assured

While registration does require an email address, to ensure your privacy, the forums and gallery are set to hide your email address. The email address is only used by the system to either validate your registration or send you messages when you're watching a forum or topic. So, your personal information is not visible to users or spammers.

Take a moment to visit both the [forum](#) and the [gallery](#) and start contributing to the Candlewood Valley online community. You can find links to both the forum and gallery on the [CVTU homepage](#) at www.cvtu.org.

CVTU Fishing Trips for 2006 (and CVTU clothing for the fashion conscious)

Gary Whipple

Here is an update on our plans for CVTU-sponsored trips for 2006. More information is available in the Forums at www.CVTU.org, but this will summarize where things are as of February 28.

The CVTU-sponsored trip to the Catskills in May has been cancelled, but there is a joint trip with the Nutmeg Chapter the weekend of May 20. For information about the joint trip, please contact Bill Blaufuss (Bill's email address is prosit67@hotmail.com his telephone number is 203 856 2004)

CVTU is hosting trips to Rocco Rosamilia's Fish Camp in central PA the nights of May 18-20 and to Cape Cod the nights of June 9 and 10. Contact Gary Whipple (Gary.Whipple@cvtu.org) to sign up. Presently a group of 7 anglers is going to Rocco's, and a group of 5 is going to Cape Cod. Former CVTU member Steve Grover is going to be joining us in Cape Cod.

Planning has started for a September trip to fish the Ausable and Boquet rivers in upstate New York. The weekend is likely to be that of the 16th, so save the weekend on your calendar, and let us know of your interest. **(See page 7 for updated information and reservations detail).**

The Chapter has arranged to provide a number of CVTU logo-embroidered clothing articles for sale. Fleece (the turtle fur kind), windshirts, polo shirts, and long-sleeved denim shirts can be ordered at the meetings or by contacting Gary Whipple. The clothing will be embroidered with the CVTU logo, and custom embroidered with the person's name for the price shown below. Payment will be due at delivery.

Fleece	\$35.00
Short sleeved golf shirts	\$30.00
Windshirt	\$50.00
Long sleeved denim shirt	\$32.00

CVTU-logo baseball caps will be available for sale at future meetings.

Valley Angler store has reopened !

Congratulations to John Kumisky, as he has his fishing store back up and running at the same location. Stop in and see the progress and say hello to John.

Compleat Angler Store has Moved

A fishing store in Darien that is known and frequented by some of our members has moved.

The Compleat Angler is now located at 172 Heights Road in Darien (exit 10 off 95). Their phone number and email address remain the same: 203-655-9400 and scottbennett@worldnet.att.net.

April 4, 2006

Memo from Gary Whipple regarding plans for the Ausable fishing trip.

Contact Gary thru the website (cvtu.org - trips forum -- he's "garthman")

I have reserved a block of 5 rooms at the Hungry Trout for the nights of September 22 and 23 under the name "Whipple". Just a note, but the weekend of September 16 was already sold out, so there is a good chance rooms will not be available if you call on your own after the block expires on April 31.

We will fish the West Branch of the Ausable, the Boquet, and other waters of interest. Members will need to call and reserve their own room against the block after April 1 but before the end of April .

Rate is \$207 per person, based on shared occupancy, 2 dinners, 2 breakfasts, 2 nights lodging.

Private access to East Branch of Ausable is available through Hungry Trout. 8 person limit/day. \$50 additional. reservations well in advance.

I will arrange for guide service if there is a desire for same. So far, no one has requested same.

Nestled in the shadow of majestic Whiteface Mountain, The Hungry Trout Motor Inn offers upscale accommodations and first class dining in an Adirondack setting unequalled in its beauty and splendor. Each of our 22 spacious guest rooms and kitchenette suites provides picture window views that frame the surrounding mountains and the peaceful sunrises and sunsets they present us each day.

The leader in providing recreational activities in the Adirondacks, The Hungry Trout is headquarters for fly fishermen and women in the Spring and Fall, skiers in the winter, and in the summer, mountain bikers, swimmers, canoers, boaters, runners, lovers, kayakers, birders, walkers, honeymooners, leaf peepers, and generally, grownups wanting to be kids again.

With bustling Lake Placid just fifteen minutes away, our facility is a favorite for those skiers seeking quiet, comfortable lodging, quick access to the slopes, and the best ski packages anywhere. The Hungry Trout is the closest full service facility to Whiteface Mountain.

CVTU List of Accomplishments—2005

James Belden

Recently, we were asked for a list of accomplishments for our Chapter activities during last year. Here is the list James Belden put together. You will see that this is a pretty long list of stuff — and we have only a small fraction of our membership active in these projects. Think what we could achieve if we had more of you participating with us! Take a look at our scheduled activities, consider what you might find fulfilling and come on out with us !!

Conservation:

Deep Brook/Pootatuck Wild Trout Management Area Stream bank restoration and trout habitat enhancement projects. These included Deep Brook and Pootatuck bank restoration projects, riparian buffer improvements, water quality analysis/studies such as water sampling and macroinvertebrate studies and public outreach.

-Board position in the new Pootatuck Watershed Protection Association.

-Presence at various public hearings pertaining to environmental and development issues. Meetings with State representatives and local officials.

Outreach:

-Participation at the Flyfishing University show in Danbury.

-The creation of an interactive website at www.cvtu.org.

-Regular media outlet coverage of our meetings and events in addition to news articles on restoration projects and environmental news.

-Construction and maintenance of an informational kiosk at the Deep Brook/Pootatuck WTMA.

-Advertising of the Annual Banquet at local businesses.

Youth:

-Aid and funding for CT DEP's SEARCH program at Newtown HS.

-Aid and consultation for an annual independent NHS student project on water quality issues.

-Pratt Environmental Center flyfishing clinic.

-New Fairfield HS Salmon egg incubator program with the Ct. River Salmon Federation.

-TIC egg incubator at Newtown Middle School and/or Reed 5-6 School.

Trout Lines

April 4, 2006

For Sale Section

We will list items for sale. Listings are free to members of CVTU and for a small fee for non-members. This is a good chance to re-allocate some of the space taken up by unused equipment ! Please send me (Tony Mortimer) any listings and I'll get them in the next newsletter.

Lamson Reels and spools - Price Reduction !

Robert DuPlessis: I have some Lamson # 3 Fly reels for sale. I purchased them some time ago and only used them a couple of times. There are two reels with a total of five spools - all are the same size and hold line weights 5, 6 and 7 with plenty of backing - (ed: I have pictures from Robert, if you want to see them). They will also accommodate an 8 weight line with less backing. They are high quality disk drag reels with a finish that can be used in either salt or fresh water. They also come with their corduroy pull string pouches. The asking price is now \$200.00 for all (I really don't want to split them up). These reels are in new condition and would be great for anyone looking for good quality reels at an affordable price.

Advertisers Section

We will list an advertiser for \$50 a year (which will provide at least 8 monthly listings). We will need text list-

Capt. Paul Koopmann of **Salty Flies Charters** (Orvis endorsed fly fishing guide with 25 years experience fishing Long Island Sound) who has a Custom 23' boat out of Rowayton, CT 203-561-9683 (email: captkoop@saltyflies.com)

The Board has been holding our meetings at Stevens Diner in Newtown over the last couple years and found them to be cheerful, efficient hosts and their food to be excellent. We encourage chapter members to visit and enjoy, as well.
